

KEY FEATURES & BENEFITS:

- **Flame - Retardant* SMMS fabric:** Particulate & low hazard splash resistance .
- **Air & Water vapor permeability:** Reduced risk of heat stress.
- **EN 1149-5 compliance:** Assured antistatic capabilities.

*to be worn over heat and flame-protective clothing (EN ISO 14116 Index 2 or above) - limits spread of flames in the event of a flash fire (EN ISO 14116 Index 1).

APPLICATIONS:

- Chemical Handling .
- Contaminated environments.
- Filling, blending & charging of raw materials.
- Transferring liquid & solids.
- Opening & draining pumps valves or lines.
- Loading & Unloading of process & equipment.
- Raw material sample collection.
- Concentration mixing & palletization.

Product Information	
Available Sizes	S, M, L, 2XL, 3XL, 4XL, 5XL
Color	White
Country of Origin	China
Packaging Overview	Individually Packed
Product Material	SMMS Fabric with fire retardant and anti-static treatment
Product Reference	1500 PLUS FR - Model 111
Standards Overview	CE CATEGORY III (Type 5, Type 6, EN 1073-2, EN ISO 14116, EN 1149-5)
Seam Type	Stitched
Shelf Life	5 years
Style Number	W17S111
