

SPLIT LEATHER WELDING HAND SLEEVE HLHS-1.5

ABOUT THIS ITEM

Welding sleeves made of top quality split leather (1.5 mm thick) with contact heat of 250°C. Tanned with chromium salts (mineral substances), the welding covers protect the entire arm and protect your clothing from hot sparks, hazards and other hazards when welding, cutting or grinding. It has a cotton strap and a PVC buckle for a great fit. Welding sleeves are also essential for the safety of any welder.
